I'm a Sagittarian at heart—naturally optimistic, intellectually curious, and deeply committed to my passions. Always eager to explore new ideas and experiences.

A proud achievement of mine is ranking in the top 1% out of 1.1 million candidates. Just a dedicated self-learner who is constantly pushing the boundaries of what he can create and understand.

Experience

Vidya Plus (freelance)

- Working on new features like online payment, video lectures & authorization.

Education

CSE, Bhabha Eng. & Research Institute (2023 - 2027)

Bachelor of Technology in Computer Science and Engineering

Projects

→ **English to Spanish Translator (recently build)**

An Encoder-Decoder Network for Neural Machine Translation that uses Attention mechanism along with LSTM cell.

→ **Time Series Forecasting (Aug 2025)**

A model capable of forecasting the number of passengers that will ride on bus and rail the next (or n) day using Chicago transit dataset.

→ **Generating Shakespeare text (Aug 2025)**

Character RNN to predict the next character in a sentence. This char RNN can then be used to generate novel text, one character at a time.

→ **Anonymous Messaging App (Web)**

Simple app with total anonymity of users, encrypted messages that will be automatically deleted within 24hrs.
